VOLUME 8. MARYVILLE, MISSOURI, TUESDAY, AUG. 14, 1917 NO. 61

WILL CALL ALL BACK

ALL REJECTED MEN WILL HAVE TO BE RE-EXAMINED.

WILL APPEAR NEXT WEEK

Necessary on Account of Several Changes Made in Physical Requirements.

All the men rejected in the physical examinations given last Tuesday, Wednesday and Thursday, will be summoned to appear and be re-examined, according to an announcement of the local board today. The reason for the re-examination of the rejected men is on account of several changes being made relative to the ears, eyes and mouth.

The following was the wire received today by Dr. Frank C. Wallis relative to this matter:

"Local board should revoke any certificate of exemption already given and proceed to have physical examination made over by same physicians.

The examination will be given, commencing next Monday. Notices will be sent to these men tomorrow. It is expected that several rejected men will now be accepted on account of these changes.

The board was still further considering claims for exemption today and announced they will make public tomorrow the names of those whose claims were allowed or disallowed.

In farming communities local boards now will arrange the lists of those to fill the first increment with local crop conditions in mind. Harvesting is in progress in many sections. Drafted men engaged in that work and who otherwise would go with the first third of the district quota will be passed over to the second or third as may be necessary.

The postoffice department announced also that it would certify exemptions for postoffice inspectors, but not for postmasters. Postmasters of the first, second and third classes, however, are exempted specifically under the law.

The Missouri Council of Defense has sent out a resume of the salient points of the interpretation as to the workings of the selective draft act, particularly in the matter of exemptions. At a meeting held in Jefferson City recently, the members of the various district boards considered the law in its numerous phases and arrived at a definite interpretation. This resume, which was addressed to the drafted men, will at once make evident the seriousness with which claims for exemption should be made.

The following is the statement issued by the Missouri Council:

How To File A Claim For Discharge.

This must be done within seven days of the mailing of the notice to appear before your local board for examination. You must procure forms for filing such claim from your local board on the day of your examination. These must be filed with your local board within seven days.

The affidavit in support of such claim must be filed with your local board (for such action as they may see fit) within ten days after the filing for discharge.

What the Word "Dependents" Means.

Dependents are a wife, child or children, a widowed mother dependent upon a son's support, an infirm parent or parents dependent upon a son for support, motherless children under sixteen years of age dependent upon a father for support, a child or children who have neither father or mother, dependent upon a brother for support.

It is necessary that the relative be dependent upon the **actual labor,** physical or mental, of the applicant, and not from any property or other sources. It is understood that the withdrawal of applicant's support would thus make the **persons dependent** upon him a **burden on the community.**

Dependent Affidavits; To Local Boards

The applicant must make affidavit

24 DIVORCES LAST YEAR

Seventeen of Them Were Filed By Wife, Seven by Husband—Abandonment the Chief Cause.

Twenty-four decrees of divorce were granted in circuit court here during the year 1916, according to the report of Circuit Clerk Henry Westfall to the Department of Commerce, Bureau of the Census. Seventeen of the divorce suits were filed by the wife, while seven were filed by the husband. Abandonment was the chief cause for most of the divorces, eleven cases having been filed on that ground. There were six cases on the grounds of indignities, one for associating with other men, one for cruel and inhuman treatment, three for desertion; one for habitual drunkard, one for non-support.

DIVORCE FOR MRS. CHILTON

Wife of Pastor of the First Christian Church of St. Joseph Awarded Alimony of $5,000.

In Judge Allen's division of the circuit court Monday morning, Mrs. Noan Chilton was awarded a decree of divorce from Dr. C. M. Chilton, pastor of the First Christian church. The grounds were indignities and there was no contest. The two had not lived together for several years.

Mrs. Chilton's petition was filed Monday morning by Mytton & Parkinson, and was immediately taken up. George W. Eastin appeared for the defendant. The plaintiff was allowed $5,000 alimony, payable $100 monthly, the defendant to pay her attorney's fee of $350.

Doctor Chilton deeded the home place at 314 North Twentieth street to Mrs. Chilton several weeks ago.—St. Joseph News-Press.

MOTORISTS MUST SAVE GAS

Unless There Is Curtailment of Pleasure Riding, Government Will Take Steps to Meet War Needs.

Washington, Aug. 14.—Warning of the possibility of drastic action by the federal government to stop excessive pleasure use of motor cars during the war in order that the gasoline needs of the United States and its allies may be met is given in a statement issued by Director Van H. Manning of the bureau of mines yesterday in which he asks the co-operation of motor owners in stopping the practice.

Enough gasoline to care for the requirements of America and perhaps that of its allies will be saved, in the opinion of Mr. Manning, "if motor car owners of the country will stop unnecessary and extravagant pleasure riding and if owners and dealers handle the fuel in a careful and economical manner.

"A patriotic, thoughtful and unselfish response to these suggestions," he said, "would at once solve one of the perplexing problems now before the war making authorities. In order that the war may be carried on successfully the army and navy will have to have immediately on hand enough gasoline for the airplanes, trucks, passenger cars, tractors and other machines. There must be no dilly-dallying about this supply of gasoline and there won't be."

Miss Alma Lyle went to Parnell today to visit for a few days with her father, Levi Lyle.

HELD TWENTY HOURS

JACK HOLT WIRES PARTICULARS OF HIS ARREST.

ON SIGHTSEEING TOUR

At the Aetna Plant at the Time of Fire—Released When His Identity Was Established.

Jackson E. Holt of Chicago, who was arrested at Gary, Ind., following an investigation into the million dollar fire which destroyed a plant of the Aetna Explosives Co., sent the following message to The Democrat-Forum today:

"I was at the Aetna Munition Plant, at Aetna, Ind., at the time of the fire on a sightseeing tour. I was arrested as a German spy and held in jail for twenty hours and was released when my identity was established. I was arrested Friday night and released early Sunday morning."

Mr. Holt was not an employee of the plant as was stated in the Chicago papers.

Mrs. L. R. Holt left for Chicago last evening to visit Mr. Holt. Jack is still a member of the ambulance unit of the Chicago university and expects to leave this week for Allendale, Pa., where the unit will be stationed before leaving for France.

MRS. J. M. MANLEY INJURED

In Auto Accident at Pierre, S. D.—Sustained Broken Arm and Collar Bone.

Mrs. Ed Hamlin received word a few days ago of an automobile accident, which occurred near Pierre, S. D., and in which her grandmother, Mrs. J. M. Manley, was seriously injured.

Mrs. Manley, together with her grandson, Vern Manley, were visiting at the home of Mr. and Mrs. W. O. Manley of Harrold ,S. D., and had started for Pierre with a party of six persons. The car was turned over, and Mrs. Manley received a broken arm, broken collar bone, and her head was badly cut. She was taken to a hotel in Pierre, and medical aid was procured.

Vern Manley escaped uninjured.

MISS SPOOR WEDS R. GARTEN

Member of Fourth Regiment Band and Maryville Girl Married in St. Joseph, Saturday.

ANNOUNCE CASH SYSTEM.

Remus Mercantile Co. Will Adopt New Method Commencing Sept. 1.

Mr. C. F. Remus of the Remus Mercantile company announces today that commencing with the first of next month his company will adopt the system of selling strictly for cash. The announcement of this change in policy is contained in the firm's advertising in this issue of The Democrat-Forum. The company after considerable study on the matter believes that the cash system will be of much benefit to their customers and is the best method in merchandising.

DOUBLY HONORED

CAPTAIN COLBERT IS NEXT IN LINE FOR A MAJOR.

COMING HOME THIS WEEK

Maryville Boy Received Much Praise While in Training at the Fort Sheridan Camp.

Herschel M. Colbert, who received his commission yesterday as captain of the Officers Reserve corps, will arrive home Friday for a visit with his parents, Dean and Mrs. G. H. Colbert, before assuming his duties on August 27. Captain Colbert was in training at Fort Sheridan, Ill., and was one of 188 to receive that rank out of 1,496 men who received commissions. Captain Colbert is in the Sixth Company, infantry section.

The men will be paid Wednesday after which their leave of absence will begin.

Colbert in Line For Major.

The Kansas City Post last evening contained the following dispatch from Chicago about Captain Colbert:

Capt. Herschel M. Colbert has been doubly honored by being made a captain, and being assigned an assistant instructor and is next in line for a major.

Colbert is 25 years old and a Missourian. He came to Chicago after attending the University of Missouri. He began newspaper work on the city news bureau as a reporter.

Colbert was one of the most efficient newspapermen in Chicago. The first week of training Colbert was selected as a platoon leader and in the third week was made "intelligent officer" of the company. He was commended following the first sham battle for the manner in which he caused his platoon to secure themselves from the "enemy."

Colbert was distinguished for his appearance and on one occasion during the reception given by Colonel Nicholson at the Y. M. C. A. he was picked out from a crowd of colleagues by the colonel and pointed to as one of the best examples of a soldierly appearing man in camp.

Charles C. Perrin, son of Mrs. A. R. Perrin, of this city, was commissioned a second lieutenant of the quartermasters corps of the National army.

Orlo H. Quinn, son of Mrs. Flora Quinn of this city, received a second lieutenant commission. Quinn has been attending the Fort Snelling, Minn., training camp. He is expected home the latter part of the week.

The pay the men who graduated from the army training camps will receive is as follows:

Major—$3,000 a year, $250 a month.

Captain—$2,400 a year, $200 a month

First lieutenant—$2,000 a year, $166.67 a month.

Second lieutenant — $1,700 a year, $141.67 a month.

THE GILLS WERE ARRESTED

Man and Wife Charged With Taking Tarpaulin of George Lucas—Wife Admits Taking It.

Mr. and Mrs. Albert Gill, living in East Maryville, were arrested charged with stealing a tarpaulin of 20x40 feet from the George Lucas farm east of the fair grounds. Gill was arrested last night by Sheriff Dowden and Mrs. Gill was taken this morning when she told Prosecuting Attorney Sawyers the particulars.

The tarpaulin was taken Sunday night and the Gills took it to their home and put it in a bed with bed coverings over it. While loading the tarpaulin Mrs. Gill lost her watch and a chain of beads and it was from this jewelry that the officers were able to track the guilty parties.

This is the second time this tarpaulin has been stolen. It was taken over a year ago and the guilty parties received a jail sentence. The charge against Mr. and Mrs. Gill will be grand larceny.

Mr. Zeigler is 23 years old and is a graduate of Central College of Fayette, and also of the State University at Columbia. He is unmarried and has not taught before.

AS PROBATION OFFICER

Sheriff Dowden Is Named By Judge Dawson to Have Charge of Juvenile Cases.

Judge John Dawson announced this morning the appointment of Sheriff Dowden as probation officer of the county. Under a new law passed by the last legislature, delinquent or neglected children will be under the jurisdiction of the circuit court instead of the probate court as it has been heretofore.

The law provided for an appointment of a probation officer whose duties are to make such investigation of these cases as may be required and to furnish the court such information as needed. The law provided the salary of the probation officer can not exceed $1,000 a year and to be fixed by the circuit court with the approval of the county court.

PROPOSAL FOR PEACE

SENT OUT BY POPE BENEDICT — HAS NOT REACHED HERE.

GERMANS RETIRE 50 YDS.

Successful British Raids Carried Out at Ancourt—German Artillery Is More Active at Ypres.

Special to The Democrat-Forum.

Washington, Aug. 14.—All particulars in Europe pertaining to the war and including the United States are to be placed on record on proposal for peace fathered by Pope Benedict. From the Vatican the Pope has addressed identical proposals to all the belligerents. They are of such nature, officials say, as to require answer. So far the proposals have not reached the United States. Secretary of State Lansing refuse dto comment but the Entente diplomats intimate it is Germany's move to cause discord and others believe Austria in desperation may have appealed to the Pope.

Germans Retire 50 Yards.

Amsterdam, Aug. 14.—An admission of the retirement of about fifty yards by the German troops of St. Quentin was made by the German war office, says a Berlin dispatch. Allied attack delivered after most destructive bombardment of German works forced the Germans from the wrecked trenches.

Successful British Raids.

London, Aug. 14.—German artillery grew more active at East Ypres on the Belgium front and near Lombaertzyde, British war office announced. Successful British raids were carried out at Aucourt and two points east of Vermelles, penetrating German trenches and inflicting heavy damage

GUARDS FORM NEW DIVISION

Units From Twenty-Six States Were Designated—Missouri To Furnish Signal Troops.

Special to The Democrat-Forum.

Washington, Aug. 14.— National guards units from twenty-six states were designated today to form the forty-second division. They will soon be sent abroad. Among the states selected are Kansas, Texas and Oklahoma, who will furnish the field battalion. The signal troops have been selected from the Missouri guard. The Kansas guard will make up the ammunition train, Texas guard will furnish the supply train and the Oklahoma guard the ambulance companies.

CAR STRIKE STILL ACUTE.

Situation at Kansas City Unchanged After A Week's Tie-Up.

Special to The Democrat-Forum.

Kansas City, Aug. 14.—The street car strike situation is unchanged after a week's tie-up. Conditions today were more chaotic than at any time during the strike. The company issued a statement that they would not attempt to move cars until police protection was given. City officials will probably try to throw the company into hands of receivers.

The heavy rain this morning made the strike felt more and many workers were late.

Major General Sibert Noted Army Engineer

Among the major generals of the regular army recently advanced to that rank by President Wilson is William L. Sibert, recently brigadier general in command of the Pacific coast artillery district, with headquarters at Fort Wiley, San Francisco.

Press dispatches from France, presumably sent forward with the approval of General Pershing's staff, show that Major General Sibert is already in France and has been chosen to command the first force sent abroad under General Pershing as commander in chief of the expedition.

The new major general is a native of Alabama and will be fifty-seven years old next October. He was graduated

MAJOR GENERAL WILLIAM L. SIBERT.

from West Point in 1884 and assigned to the engineering corps. Since then he has been engaged principally in engineering work and is noted as the builder of the famous Gatun locks and dam on the Panama canal. During the Spanish-American war he took a battalion of engineers to the Philippines and, among other work, rebuilt the Dagupan railway. In 1914 he was selected by President Wilson as chairman of the board of engineers to examine the details of the American Red Cross project for the prevention of floods in eastern China.

Prevent Waste of Sugar And Failure of Jellies

Much waste of sugar and spoilage of jellies can be avoided by using a simple alcohol test recommended by the bureau of chemistry, United States department of agriculture. To determine how much sugar should be used with each kind of juice put a spoonful of juice in a glass and add to it one spoonful of 95 per cent grain alcohol, mixed by shaking the glass gently. Pour slowly from the glass, noting how the pectin—the substance in fruits which makes them jell—is precipitated. If the pectin is precipitated as one lump a cup of sugar may be used for each cup of juice. If in several lumps the proportion of sugar must be reduced to approximately three-fourths of the amount of the juice. If the pectin is not in lumps, but is merely precipitated, the sugar should be one-half or less of the amount of the juice. If the juice shows no precipitation under this test it is unsuitable for jelly making and must be combined with apples or other juices rich in pectin.

The housewife will do well before making the test to taste the juice, as fruits not as acid as good tart apples probably will not make good jelly unless mixed with other fruits which are acid.

Mother's Doll Story

The Sitting Hen

"Mother, where is my pet hen?" called Benny one morning.

"Did you look in her nest, my dear?" asked his mother.

Then Benny ran to the kitchen and looked in the pasteboard box that the cook had given him for his rag doll hen.

Betty was her name. She had flannel wings and tail sewed on to a gray felt body, and a bit of red flannel made her a charming comb.

Betty had scratched around the house to find some hay for a real nest, but there was no hay in the house. So she was glad to have a pasteboard box to lay eggs in.

And what do you think Benny found under her when he ran into the kitchen?

Why, three big candy eggs—molasses candy, you know. And then the cook gave him two gingersnaps, and, with Betty under his arm, he toddled off to eat an egg and a gingersnap out in the back yard under the big apple tree.

Conundrums.

What is the color of a grass plat covered with green? Invisible green.

Why did Adam bite the apple Eve gave him? Because he had no knife.

What word by changing a letter becomes its opposite? United—untied.

Why does a dressmaker never lose her hooks? Because she has an eye to each of them.

Announcing a Change in Business Policy

Beginning Saturday, September 1, 1917 this store will adopt the system of selling strictly for cash

WE HAVE COME TO THIS DECISION AFTER A LONG AND CAREFUL STUDY of the problem of merchandising as it affects our customers as well as ourselves—and we are firmly of the opinion that the cash business offers even more in the way of saving to our customers than it does to us.

WE KNOW THAT WE CAN SELL OUR GOODS FOR LESS MONEY if we sell for cash than we can if we continue the credit system. And in these days of advancing costs, the average American citizen finds it increasingly necessary to make his dollars purchase the greatest possible amount of merchandise.

THE ASSERTION THAT THE CASH STORE CAN SELL FOR LESS THAN THE CREDIT STORE IS EASILY DEMONSTRATED. The merchant who gets the money when the goods leave the store has the money to buy the goods to replace those he has sold; if the goods go out on charge accounts, the merchant must find other money to pay for the goods he has to replace — and that means he must have a larger investment to carry on a certain business — and money costs money.

WE ARE ARRANGING A SYSTEM OF COUPON BOOKS FOR THE CONVENIENCE OF OUR CUSTOMERS who do not wish to keep money at the home or who find it more convenient to use the coupon book than to pay for each order of merchandise as they get it. These books will vary in size from $5 to $25 and a discount of 2 per cent will be allowed the purchaser — we do not ask you to pay in advance without paying you for your money.

WE SHALL CONTINUE TO PAY THE HIGHEST CASH PRICES FOR YOUR FARM PRODUCE. You may take the cash or a coupon book as you prefer.

ANOTHER THING WE WISH TO EMPHASIZE:. We are not changing from a credit to a cash business because our customers do not pay their accounts. We do not have that kind of customers. The change is being made simply because we know we can serve our customers better and sell them goods cheaper under the new plan than we can under the old.

WATCH FOR OUR ANNOUNCEMENTS UNDER THE CAS HSYSTEM. You will be convinced that we are giving you the benefit of the saving in lower prices, and you will appreciate as never before THE POWER OF CASH.

according to the form furnished by the local board. A second similar affidavit must be made by the person or persons who are dependent. A third affidavit is required from a third party who shall be the head of a family and a man of reputation in the community, and who shall know personally, both the applicant and dependent.

Persons Considered Exempt.

Medical students are not exempt. Members of Red Cross work are not exempt. Members of other societies working in any other capacity at military camps who are not enlisted in the National Guard, military or naval departments of the United States, are not exempt.

Members of the Legislature are exempt, both of the Nation and State. County, municipal and township officers, who are elected by popular vote and whose unexpired term cannot be filled by the appointive power are exempt. Also all state officers. Such legislative, judicial and executive officers are exempt.

Firemen and policemen are not exempt. Mail carriers and rural carriers are not exempt. Persons actually engaged in the transmission of the mails and whose service cannot be dispensed with without a loss to the department are exempt.

Appeals to the District Board.

An appeal may be taken from the decision of the local board within ten days after the notice of acceptance is posted.

Every claim for discharge or exemption will be decided by the local board within three days after the notice has been filed. The forms for appeal to the district board will be furnished by the local board. At this time you file your appeal with the local board and send your notice of appeal to the district board on forms that will be furnished you. You have five days after the district board receives your notice that you have filed a claim within which to file proof. Notice of all such evidence must be considered as an affidavit. The decision of your appeal will be made within five days of the closing of proof, and you will be notified by mail of the action of the board on your appeal.

Claim For Discharge.

The district board alone can consider claims of this character. Industrial grounds include agriculture **necessary to the maintenance of the military forces.** Such claims must be filed with the district board on or before the fifth day after the mailing and posting of notice that you have been certified by the local board as called for service and not exempt or discharged. You are then allowed five days in which to file evidence in support of your claim that you are exempt, on industrial grounds. Remember **the district board will consider only affidavits.** In making your claim on industrial grounds ask yourself. First. Does my work contribute materially and directly to the maintenance of the military establishment, or the maintenance of the national interest? Second. Is there no one to fill my place without causing a direct and substantial loss or detriment to the adequate production of my particular work?

(Remember that in answering these questions you are making an affidavit and that if you swear falsely you incur the liability of very stringent penalties).

Finally, remember, that in making out these affidavits you are supplying your government with information as to the most desirable method of placing yourself—whether a loss occasioned by your removal from your particular pursuit is justified by making you a member of the military force. The Government reserves the right to be favored in all cases of doubt. Remember, also, that in each district the Government will have a representative to receive all information in support of and in opposition to your claim. Remember, also, that all exemptions on account of dependents are automatically appealed by the Government to the district boards. Doubtful affidavits are to be carefully scrutinized and all affidavits are to be made public through the press.

THE COAL TRUST PROBE

Taking of Testimony to Hear Evidence and Determine Facts Started There Today.

St. Louis, Aug. 14.—Missouri's coal trust probe shifted to St. Louis today. Taking of testimony began here this morning by Special Commissioner Major J. Lilly, appointed by the Missouri Supreme court to hear evidence and determine facts relative to the arbitrary fixing of coal prices by organized coal operators. Attorney General McAllister who is expected here today has evidence that an "inner group' of coal operators sold coal at 50 cents a ton cheaper to certain favored customers than others. This is a violation of the state anti-trust laws.

It is expected the inquiry here will result in the issuance of quo warranto proceedings in the Supreme court to bar certain coal operators from the state or fine them heavily. Among those who will be summoned for the inquiry are officers of the Fifth and Ninth Districts Bureaus of the Inner Group, members of the Inner Group Coal Trades News and Efficiency bureau, and operator's organization, and members of the Illinois Coal Operators' Association, who operate in Missouri.

WILL TAKE OFF TRAINS.

Further Reductions in Passenger Service in Central Territory.

Chicago, Aug. 14.—Further extensive reductions in passenger train service are to take effect soon in the central territory. Reductions for this year will amount to 12 million passenger miles, according to R. H. Aishton, chairman of the central committee of the railroads war board.

States in the central territory include Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North and South Dakota, Ohio, West Virginia, Wisconsin and Illinois. Reductions will be made by lengthening trans - continental schedules.

A DEPENDABLE MEDICINE.

Lydia E. Pinkham's Vegetable Compound is a dependable root and herb medicine. It has made a place for itself among the great mass of people, because thousands of sick women have tried it and proved that it will accomplish all that is claimed for it. Nothing unfavorable can honestly be said about it. It does not contain injurious drugs. It is a root and herb remedy founded upon a physician's prescription, and is manufactured for a specific purpose. That it accomplishes this purpose is proved by thousands and thousands of convincing testimonials.

FOURTH REGIMENT LEFT

10,000 People Saw the Soldiers Depart From St. Joseph Last Night.

The Fourth Regiment left St. Joseph last evening in two sections, the first section departing at 7:30 p. m., and the second following just fifteen minutes later. On the first section were ten cars carrying the Tarkio and Mound City companies with their baggage. Only half the regiment, 1,000 men, moved last night; the rest will leave today, reaching Camp Clark at Nevada this evening.

The St. Joseph Gazette in an account of the departure of the soldier boys, says:

The band was the last of the units to arrive at the Union Station. It marched through the streets to the station, and down the yards to the waiting coaches, where it played a few numbers before entraining.

There were 10,000 peope at the Union Station to see the boys off. A number of Maryville people were in the crowd.

Before washing lace collars baste them closely on a piece of white cloth. They will not be stretched nor torn. If no starch is put in them they will look like new.

Forcing Late Chicks For Winter Egg Laying

Chickens may be forced for early laying by feeding a large proportion of meat in their ration, and their maturity may be delayed by withholding meat and feeding them largely upon corn and like fattening foods, writes a correspondent of the Rural New Yorker.

There are limits, of course, to which these methods can be safely carried, but if it is desired to make early layers of May hatched chicks they should have a liberal amount of meat of some kind or of skimmilk in their ration from the start. They will thus develop and "ripen" quickly and will lay correspondingly early.

Some poultrymen feed a dry mash containing one-fourth part by weight of the best beef scrap and keep it constantly before their growing chicks; others keep the scrap in open hoppers, where the chicks can help themselves at will. If young chicks can have free range they will not overeat from hoppers always open before them.

Kansas City Stock Letter.

Kansas City Stock Yards, Aug. 13.—Cattle received today 18,000 head, market strong to 15c higher on steers, top, $14, 15c to 20c higher on cows and stockers and feeders, 25c to 50c higher on calves. Hog supply was 7,000, market 20c to 30c higher, top $17.35. Sheep and lambs today 4,000, Utah lambs $15.50.

Beef Cattle.

Various lots of prime steers sold at $14, and the right kind would bring $14.25. Grass steers sold 10c to 15c higher, weighty steers mostly at $10.50 to $12.50, tops at $13.35, for wintered steers. Oklahoma steers sold at $8.25 to $11.75, including quarantines weighing 1046 pounds, at $11.00. The first train of Western Slope Colorados arrived, 12 cars, from Debeque, Colo., 1127 pounds average, at $10.75. Cows were 15c to 25c higher, a car load early to an outside buyer at $10.00, not extra fat. Calves made a big advance, top veals $12.25.

Stockers and Feeders.

Stock steers at $8.50 today were called $1.50 higher than two weeks ago. A feature sale today was 400 well bred Hereford stock calves from Western Kansas, 375 pounds, at $8.65. Feeding steers weighing 1025 pounds, brought $11.25. It was a good market on all classes from the country.

Hogs.

Hogs are skyrocketing in the last week, and nobody dares say where the advance will stop. A week ago the limit was put at $17. Now people are talking $20. Heavy hogs brought $17.35, medium weight hogs sold up to $17.25, light hogs $17.10, pigs $13.00 to $14.50, immune stock hogs at $15 to $16. Apparently nothing is being sacrificed, and demand for immune stock hogs at the plants around the stock yards is very good, market up to 50 cents from Friday. Recent rains are making some hopeless looking corn fields look much better, and if frost holds off the crop will be much larger than prospects indicated two weeks ago.

Sheep and Lambs.

The market advanced a dollar or more after the middle of last week, and is 25c to 40c higher today. Five cars of lambs from Joseph Perry, Ogden, Utah, first of the season from Utah, sold straight at $15.50, 68lb average. Native lambs sold up to $15.15, and feeding lambs are worth practically as much as fat lambs. Prime handy weight ewes would bring $10 from killers, but most of the ewes go as breeders, up to $14.50.

—waiting for change of weather is for competitors only.

Some merchants do not understand advertising. They advertise when business is good and are satisfied, but they fail to put on pressure when business is poor. Really the time when advertising is needed most is when business is hardest to get.

The concern which is awake every day in the week and every week in the year is the concern which will be counting profits when others are trying to hold out against losses. The business man who waits for business to come his way as a lucky gift, who is not above the weather and who thinks of certain seasons only as being productive is the man who adds to the per centage of business failures.

When business is hardest to get then is the very time to speed up on selling methods, then is the time when advertising shows its power of production. The merchant who understands this is the one who will continue to enlarge his organization. Sitting still, giving extended vacations and waiting for change of weather is for competitors only and not for those in the sale getting frame of mind.

You may live in the most wonderful trade territory in the world, but if you neglect to go after this trade consistently and regularly you will not be one of those men who enlarges his organization,

Remember that when trade is the hardest to get then is the time to put on pressure. And every day of waiting means a distinct loss to future profits.

VOLUME 8. MARYVILLE, MISSOURI, TUESDAY, AUG. 14, 1917 NO. 61

WILL CALL ALL BACK

ALL REJECTED MEN WILL HAVE TO BE RE-EXAMINED.

WILL APPEAR NEXT WEEK

Necessary on Account of Several Changes Made in Physical Requirements.

All the men rejected in the physical examinations given last Tuesday, Wednesday and Thursday, will be summoned to appear and be re-examined, according to an announcement of the local board today. The reason for the re-examination of the rejected men is on account of several changes being made relative to the ears, eyes and mouth.

The following was the wire received today by Dr. Frank C. Wallis relative to this matter:

"Local board should revoke any certificate of exemption already given and proceed to have physical examination made over by same physicians.

The examination will be given, commencing next Monday. Notices will be sent to these men tomorrow. It is expected that several rejected men will now be accepted on account of these changes.

The board was still further considering claims for exemption today and announced they will make public tomorrow the names of those whose claims were allowed or disallowed.

In farming communities local boards now will arrange the lists of those to fill the first increment with local crop conditions in mind. Harvesting is in progress in many sections. Drafted men engaged in that work and who otherwise would go with the first third of the district quota will be passed over to the second or third as may be necessary.

The postoffice department announced also that it would certify exemptions for postoffice inspectors, but not for postmasters. Postmasters of the first, second and third classes, however, are exempted specifically under the law.

The Missouri Council of Defense has sent out a resume of the salient points of the interpretation as to the workings of the selective draft act, particularly in the matter of exemptions. At a meeting held in Jefferson City recently, the members of the various district boards considered the law in its numerous phases and arrived at a definite interpretation. This resume, which was addressed to the drafted men, will at once make evident the seriousness with which claims for exemption should be made.

The following is the statement issued by the Missouri Council:

How To File A Claim For Discharge.

This must be done within seven days of the mailing of the notice to appear before your local board for examination. You must procure forms for filing such claim from your local board on the day of your examination. These must be filed with your local board within seven days.

The affidavit in support of such claim must be filed with your local board (for such action as they may see fit) within ten days after the filing for discharge.

What the Word "Dependents" Means.

Dependents are a wife, child or children, a widowed mother dependent upon a son's support, an infirm parent or parents dependent upon a son for support, motherless children under sixteen years of age dependent upon a father for support, a child or children who have neither father or mother, dependent upon a brother for support.

It is necessary that the relative be dependent upon the **actual labor,** physical or mental, of the applicant, and not from any property or other sources. It is understood that the withdrawal of applicant's support would thus make the **persons dependent** upon him a **burden on the community.**

24 DIVORCES LAST YEAR

Seventeen of Them Were Filed By Wife, Seven by Husband—Abandonment the Chief Cause.

Twenty-four decrees of divorce were granted in circuit court here during the year 1916, according to the report of Circuit Clerk Henry Westfall to the Department of Commerce, Bureau of the Census. Seventeen of the divorce suits were filed by the wife, while seven were filed by the husband. Abandonment was the chief cause for most of the divorces, eleven cases having been filed on that ground. There were six cases on the grounds of indignities, one for associating with other men, one for cruel and inhuman treatment, three for desertion; one for habitual drunkard, one for non-support.

DIVORCE FOR MRS. CHILTON

Wife of Pastor of the First Christian Church of St. Joseph Awarded Alimony of $5,000.

In Judge Allen's division of the circuit court Monday morning, Mrs. Noan Chilton was awarded a decree of divorce from Dr. C. M. Chilton, pastor of the First Christian church. The grounds were indignities and there was no contest. The two had not lived together for several years.

Mrs. Chilton's petition was filed Monday morning by Mytton & Parkinson, and was immediately taken up. George W. Eastin appeared for the defendant. The plaintiff was allowed $5,000 alimony, payable $100 monthly, the defendant to pay her attorney's fee of $350.

Doctor Chilton deeded the home place at 314 North Twentieth street to Mrs. Chilton several weeks ago.—St. Joseph News-Press.

MOTORISTS MUST SAVE GAS

Unless There Is Curtailment of Pleasure Riding, Government Will Take Steps to Meet War Needs.

Washington, Aug. 14.—Warning of the possibility of drastic action by the federal government to stop excessive pleasure use of motor cars during the war in order that the gasoline needs of the United States and its allies may be met is given in a statement issued by Director Van H. Manning of the bureau of mines yesterday in which he asks the co-operation of motor owners in stopping the practice.

Enough gasoline to care for the requirements of America and perhaps that of its allies will be saved, in the opinion of Mr. Manning, "if motor car owners of the country will stop unnecessary and extravagant pleasure riding and if owners and dealers handle the fuel in a careful and economical manner.

"A patriotic, thoughtful and unselfish response to these suggestions," he said, "would at once solve one of the perplexing problems now before the war making authorities. In order that the war may be carried on successfully the army and navy will have to have immediately on hand enough gasoline for the airplanes, trucks, passenger cars, tractors and other machines. There must be no dilly-dallying about this supply of gasoline and there won't be."

At the Aetna Plant at the Time of Fire—Released When His Identity Was Established.

Jackson E. Holt of Chicago, who was arrested at Gary, Ind., following an investigation into the million dollar fire which destroyed a plant of the Aetna Explosives Co., sent the following message to The Democrat-Forum today:

"I was at the Aetna Munition Plant, at Aetna, Ind., at the time of the fire on a sightseeing tour. I was arrested as a German spy and held in jail for twenty hours and was released when my identity was established. I was arrested Friday night and released early Sunday morning."

Mr. Holt was not an employee of the plant as was stated in the Chicago papers.

Mrs. L. R. Holt left for Chicago last evening to visit Mr. Holt. Jack is still a member of the ambulance unit of the Chicago university and expects to leave this week for Allendale, Pa., where the unit will be stationed before leaving for France.

MRS. J. M. MANLEY INJURED

In Auto Accident at Pierre, S. D.—Sustained Broken Arm and Collar Bone.

Mrs. Ed Hamlin received word a few days ago of an automobile accident, which occurred near Pierre, S. D., and in which her grandmother, Mrs. J. M. Manley, was seriously injured.

Mrs. Manley, together with her grandson, Vern Manley, were visiting at the home of Mr. and Mrs. W. O. Manley of Harrold ,S. D., and had started for Pierre with a party of six persons. The car was turned over, and Mrs. Manley received a broken arm, broken collar bone, and her head was badly cut. She was taken to a hotel in Pierre, and medical aid was procured.

Vern Manley escaped uninjured.

DOUBLY HONORED

CAPTAIN COLBERT IS NEXT IN LINE FOR A MAJOR.

COMING HOME THIS WEEK

Maryville Boy Received Much Praise While in Training at the Fort Sheridan Camp.

Herschel M. Colbert, who received his commission yesterday as captain of the Officers Reserve corps, will arrive home Friday for a visit with his parents, Dean and Mrs. G. H. Colbert, before assuming his duties on August 27. Captain Colbert was in training at Fort Sheridan, Ill., and was one of 188 to receive that rank out of 1,496 men who received commissions. Captain Colbert is in the Sixth Company, infantry section.

The men will be paid Wednesday after which their leave of absence will begin.

Colbert in Line For Major.

The Kansas City Post last evening contained the following dispatch from Chicago about Captain Colbert:

Capt. Herschel M. Colbert has been doubly honored by being made a captain, and being assigned an assistant instructor and is next in line for a major.

Colbert is 25 years old and a Missourian. He came to Chicago after attending the University of Missouri. He began newspaper work on the city news bureau as a reporter.

Colbert was one of the most efficient newspapermen in Chicago. The first week of training Colbert was selected as a platoon leader and in the third week was made "intelligent officer" of the company. He was commended following the first sham battle for the manner in which he caused his platoon to secure themselves from the "enemy."

Colbert was distinguished for his appearance and on one occasion during the reception given by Colonel Nicholson at the Y. M. C. A. he was picked out from a crowd of colleagues by the colonel and pointed to as one of the best examples of a soldierly appearing man in camp.

Charles C. Perrin, son of Mrs. A. R. Perrin, of this city, was commissioned a second lieutenant of the quartermasters corps of the National army.

Orlo H. Quinn, son of Mrs. Flora Quinn of this city, received a second lieutenant commission. Quinn has been attending the Fort Snelling, Minn., training camp. He is expected home the latter part of the week.

The pay the men who graduated from the army training camps will receive is as follows:

Major—$3,000 a year, $250 a month.

Captain—$2,400 a year, $200 a month

First lieutenant—$2,000 a year, $166.67 a month.

Second lieutenant — $1,700 a year, $141.67 a month.

THE GILLS WERE ARRESTED

Man and Wife Charged With Taking Tarpaulin of George Lucas—Wife Admits Taking It.

Mr. and Mrs. Albert Gill, living in East Maryville, were arrested charged with stealing a tarpaulin of 20x40 feet from the George Lucas farm east of the fair grounds. Gill was arrested last night by Sheriff Dowden and Mrs. Gill was taken this morning when she told Prosecuting Attorney Sawyers the particulars.

The tarpaulin was taken Sunday night and the Gills took it to their home and put it in a bed with bed coverings over it. While loading the tarpaulin Mrs. Gill lost her watch and a chain of beads and it was from this jewelry that the officers were able to track the guilty parties.

This is the second time this tarpaulin has been stolen. It was taken over a year ago and the guilty parties received a jail sentence. The charge against Mr. and Mrs. Gill will be grand larceny.

AS PROBATION OFFICER

Sheriff Dowden Is Named By Judge Dawson to Have Charge of Juvenile Cases.

Judge John Dawson announced this morning the appointment of Sheriff Dowden as probation officer of the county. Under a new law passed by the last legislature, delinquent or neglected children will be under the jurisdiction of the circuit court instead of the probate court as it has been heretofore.

The law provided for an appointment of a probation officer whose duties are to make such investigation of these cases as may be required and to furnish the court such information as needed. The law provided the salary of the probation officer can not exceed $1,000 a year and to be fixed by the circuit court with the approval of the county court.

GERMANS RETIRE 50 YDS.

Successful British Raids Carried Out at Aucourt—German Artillery Is More Active at Ypres.

Special to The Democrat-Forum.

Washington, Aug. 14.—All particulars in Europe pertaining to the war and including the United States are to be placed on record on proposal for peace fathered by Pope Benedict. From the Vatican the Pope has addressed identical proposals to all the belligerents. They are of such nature, officials say, as to require answer. So far the proposals have not reached the United States. Secretary of State Lansing refuse dto comment but the Entente diplomats intimate it is Germany's move to cause discord and others believe Austria in desperation may have appealed to the Pope.

Germans Retire 50 Yards.

Amsterdam, Aug. 14.—An admission of the retirement of about fifty yards by the German troops of St. Quentin was made by the German war office, says a Berlin dispatch. Allied attack delivered after most destructive bombardment of German works forced the Germans from the wrecked trenches.

Successful British Raids.

Major General Sibert Noted Army Engineer

Among the major generals of the regular army recently advanced to that rank by President Wilson is William L. Sibert, recently brigadier general in command of the Pacific coast artillery district, with headquarters at Fort Wiley, San Francisco.

Press dispatches from France, presumably sent forward with the approval of General Pershing's staff, show that Major General Sibert is already in France and has been chosen to command the first force sent abroad under General Pershing as commander in chief of the expedition.

The new major general is a native of Alabama and will be fifty-seven years old next October. He was graduated

MAJOR GENERAL WILLIAM L. SIBERT.

from West Point in 1884 and assigned to the engineering corps. Since then he has been engaged principally in engineering work and is noted as the builder of the famous Gatun locks and dam on the Panama canal. During the Spanish-American war he took a battalion of engineers to the Philippines and, among other work, rebuilt the Dagupan railway. In 1914 he was selected by President Wilson as chairman of the board of engineers to examine the details of the American Red Cross project for the prevention of floods in eastern China.

Prevent Waste of Sugar And Failure of Jellies

Much waste of sugar and spoilage of jellies can be avoided by using a simple alcohol test recommended by the bureau of chemistry, United States department of agriculture. To determine how much sugar should be used with each kind of juice put a spoonful of juice in a glass and add to it one spoonful of 95 per cent grain alcohol, mixed by shaking the glass gently. Pour slowly from the glass, noting how the pectin—the substance in fruits which makes them jell—is precipitated. If the pectin is precipitated as one lump a cup of sugar may be used for each cup of juice. If in several lumps the proportion of sugar must be reduced to approximately three-fourths of the amount of the juice. If the pectin is not in lumps, but is merely precipitated, the sugar should be one-half or less of the amount of the juice. If the juice shows no precipitation under this test it is unsuitable for jelly making and must be combined with apples or other juices rich in pectin.

The housewife will do well before making the test to taste the juice, as fruits not as acid as good tart apples probably will not make good jelly unless mixed with other fruits which are acid.

Mother's Doll Story

The Sitting Hen

"Mother, where is my pet hen?" called Benny one morning.

"Did you look in her nest, my dear?" asked his mother.

Then Benny ran to the kitchen and looked in the pasteboard box that the cook had given him for his rag doll hen.

Betty was her name. She had flannel wings and tail sewed on to a gray felt body, and a bit of red flannel made her a charming comb.

Betty had scratched around the house to find some hay for a real nest, but there was no hay in the house. So she was glad to have a pasteboard box to lay eggs in.

And what do you think Benny found under her when he ran into the kitchen?

Why, three big candy eggs—molasses candy, you know. And then the cook gave him two gingersnaps, and, with Betty under his arm, he toddled off to eat an egg and a gingersnap out in the back yard under the big apple tree.

Conundrums.

What is the color of a grass plat covered with green? Invisible green.

Why did Adam bite the apple Eve gave him? Because he had no knife.

What word by changing a letter becomes its opposite? United—untied.

Why does a dressmaker never lose her hooks? Because she has an eye to each of them.

Announcing a Change in Business Policy

Beginning Saturday, September 1, 1917 this store will adopt the system of selling strictly for cash

WE HAVE COME TO THIS DECISION AFTER A LONG AND CAREFUL STUDY of the problem of merchandising as it affects our customers as well as ourselves—and we are firmly of the opinion that the cash business offers even more in the way of saving to our customers than it does to us.

WE KNOW THAT WE CAN SELL OUR GOODS FOR LESS MONEY if we sell for cash than we can if we continue the credit system. And in these days of advancing costs, the average American citizen finds it increasingly necessary to make his dollars purchase the greatest possible amount of merchandise.

THE ASSERTION THAT THE CASH STORE CAN SELL FOR LESS THAN THE CREDIT STORE IS EASILY DEMONSTRATED. The merchant who gets the money when the goods leave the store has the money to buy the goods to replace those he has sold; if the goods go out on charge accounts, the merchant must find other money to pay for the goods he has to replace — and that means he must have a larger investment to carry on a certain business — and money costs money.

WE ARE ARRANGING A SYSTEM OF COUPON BOOKS FOR THE CONVENIENCE OF OUR CUSTOMERS who do not wish to keep money at the home or who find it more convenient to use the coupon book than to pay for each order of merchandise as they get it. These books will vary in size from $5 to $25 and a discount of 2 per cent will be allowed the purchaser — we do not ask you to pay in advance without paying you for your money.

WE SHALL CONTINUE TO PAY THE HIGHEST CASH PRICES FOR YOUR FARM PRODUCE. You may take the cash or a coupon book as you prefer.

ANOTHER THING WE WISH TO EMPHASIZE:. We are not changing from a credit to a cash business because our customers do not pay their accounts. We do not have that kind of customers. The change is being made simply because we know we can serve our customers better and sell them goods cheaper under the new plan than we can under the old.

WATCH FOR OUR ANNOUNCEMENTS UNDER THE CAS HSYSTEM. You will be convinced that we are giving you the benefit of the saving in lower prices, and you will appreciate as never before THE POWER OF CASH.

A third affidavit is required from a third party who shall be the head of a family and a man of reputation in the community, and who shall know personally, both the applicant and dependent.

Persons Considered Exempt.

Medical students are not exempt. Members of Red Cross work are not exempt. Members of other societies working in any other capacity at military camps who are not enlisted in the National Guard, military or naval departments of the United States, are not exempt.

Members of the Legislature are exempt, both of the Nation and State. County, municipal and township officers, who are elected by popular vote and whose unexpired term cannot be filled by the appointive power are exempt. Also all state officers. Such legislative, judicial and executive officers are exempt.

Firemen and policemen are not exempt. Mail carriers and rural carriers are not exempt. Persons actually engaged in the transmission of the mails and whose service cannot be dispensed with without a loss to the department are exempt.

Appeals to the District Board.

An appeal may be taken from the decision of the local board within ten days after the notice of acceptance is posted.

Every claim for discharge or exemption will be decided by the local board within three days after the notice has been filed. The forms for appeal to the district board will be furnished by the local board. At this time you file your appeal with the local board and send your notice of appeal to the district board on forms that will be furnished you. You have five days after the district board receives your notice that you have filed a claim within which to file proof. Notice of all such evidence must be considered as an affidavit. The decision of your appeal will be made within five days of the closing of proof, and you will be notified by mail of the action of the board on your appeal.

Claim For Discharge.

The district board alone can consider claims of this character. Industrial grounds include agriculture **necessary to the maintenance of the military forces.** Such claims must be filed with the district board on or before the fifth day after the mailing and posting of notice that you have been certified by the local board as called for service and not exempt or discharged. You are then allowed five days in which to file evidence in support of your claim that you are exempt, on industrial grounds. Remember **the district board will consider only affidavits.** In making your claim on industrial grounds ask yourself. First. Does my work contribute materially and directly to the maintenance of the military establishment, or the maintenance of the national interest? Second. Is there no one to fill my place without causing a direct and substantial loss or detriment to the adequate production of my particular work?

(Remember that in answering these questions you are making an affidavit and that if you swear falsely you incur the liability of very stringent penalties).

Finally, remember, that in making out these affidavits you are supplying your government with information as to the most desirable method of placing yourself—whether a loss occasioned by your removal from your particular pursuit is justified by making you a member of the military force. The Government reserves the right to be favored in all cases of doubt. Remember, also, that in each district the Government will have a representative to receive all information in support of and in opposition to your claim. Remember, also, that al. exemptions on account of dependents are automatically appealed by the Government to the district boards. Doubtful affidavits are to be carefully scrutinized and all affidavits are to be made public through the press.

THE COAL TRUST PROBE

Taking of Testimony to Hear Evidence and Determine Facts Started There Today.

St. Louis, Aug. 14.—Missouri's coal trust probe shifted to St. Louis today. Taking of testimony began here this morning by Special Commissioner Major J. Lilly, appointed by the Missouri Supreme court to hear evidence and determine facts relative to the arbitrary fixing of coal prices by organized coal operators. Attorney General McAllister who is expected here today has evidence that an "inner group' of coal operators sold coal at 50 cents a ton cheaper to certain favored customers than others. This is a violation of the state anti-trust laws.

It is expected the inquiry here will result in the issuance of quo warranto proceedings in the Supreme court to bar certain coal operators from the state or fine them heavily. Among those who will be summoned for the inquiry are officers of the Fifth and Ninth Districts Bureaus of the Inner Group, members of the Inner Group Coal Trades News and Efficiency bureau, and operator's organization, and members of the Illinois Coal Operators' Association, who operate in Missouri.

WILL TAKE OFF TRAINS.

Further Reductions in Passenger Service in Central Territory.

Chicago, Aug. 14.—Further extensive reductions in passenger train service are to take effect soon in the central territory. Reductions for this year will amount to 12 million passenger miles, according to R. H. Aishton, chairman of the central committee of the railroads war board.

States in the central territory include Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North and South Dakota, Ohio, West Virginia, Wisconsin and Illinois. Reductions will be made by lengthening trans - continental schedules.

A DEPENDABLE MEDICINE.

Lydia E. Pinkham's Vegetable Compound is a dependable root and herb medicine. It has made a place for itself among the great mass of people, because thousands of sick women have tried it and proved that it will accomplish all that is claimed for it. Nothing unfavorable can honestly be said about it. It does not contain injurious drugs. It is a root and herb remedy founded upon a physician's prescription, and is manufactured for a specific purpose. That it accomplishes this purpose is proved by thousands and thousands of convincing testimonials.

FOURTH REGIMENT LEFT

10,000 People Saw the Soldiers Depart From St. Joseph Last Night.

The Fourth Regiment left St. Joseph last evening in two sections, the first section departing at 7:30 p. m., and the second following just fifteen minutes later. On the first section were ten cars carrying the Tarkio and Mound City companies with their baggage. Only half the regiment, 1,000 men, moved last night; the rest will leave today, reaching Camp Clark at Nevada this evening.

The St. Joseph Gazette in an account of the departure of the soldier boys, says:

The band was the last of the units to arrive at the Union Station. It marched through the streets to the station, and down the yards to the waiting coaches, where it played a few numbers before entraining.

There were 10,000 peope at the Union Station to see the boys off. A number of Maryville people were in the crowd.

In the ball game Sunday between Harmony and Parnell base ball terms the score was 9 to 6 in favor of Parnell.

J. A. Brittain, J. F. and C. W. Brown of Skidmore were in Maryville on business Monday.

When preparing grapefruit for the table cut out the center, fill the cavity with maple sirup and let it stand in the ice box for an hour before serving.

It is often difficult to remove a cake from a pan without breaking it. After the cake has been baked the required length of time place the pan containing same on a wet cloth and let it stand for a few minutes. Then run a knife around between the edge of the cake and the pan and you will have no further trouble.

An excellent way to finish armholes in a fine lingerie waist is to sew the sleeves in by machine; then buttonhole around the edges with either a coarse thread or soft floss.

Before washing lace collars baste them closely on a piece of white cloth. They will not be stretched nor torn. If no starch is put in them they will look like new.

Forcing Late Chicks For Winter Egg Laying

Chickens may be forced for early laying by feeding a large proportion of meat in their ration, and their maturity may be delayed by withholding meat and feeding them largely upon corn and like fattening foods, writes a correspondent of the Rural New Yorker.

There are limits, of course, to which these methods can be safely carried, but if it is desired to make early layers of May hatched chicks they should have a liberal amount of meat of some kind or of skimmilk in their ration from the start. They will thus develop and "ripen" quickly and will lay correspondingly early.

Some poultrymen feed a dry mash containing one-fourth part by weight of the best beef scrap and keep it constantly before their growing chicks; others keep the scrap in open hoppers, where the chicks can help themselves at will. If young chicks can have free range they will not overeat from hoppers always open before them.

Smartly Said

Investigating Trolley Collision.

North Brandford, Conn., Aug. 14.—State officials are investigating the cause of the trolley collision, which occurred here late yesterday evening. Nineteen were killed and more than forty injured. Overworked motormen is said to be one of the causes of the collision. Both cars were crowded and the bodies of the dead were horribly mangled.

Kansas City Stock Letter.

Kansas City Stock Yards, Aug. 13.—Cattle received today 18,000 head, market strong to 15c higher on steers, top, $14, 15c to 20c higher on cows and stockers and feeders, 25c to 50c higher on calves. Hog supply was 7,000, market 20c to 30c higher, top $17.35. Sheep and lambs today 4,000, Utah lambs $15.50.

Beef Cattle.

Various lots of prime steers sold at $14, and the right kind would bring $14.25. Grass steers sold 10c to 15c higher, weighty steers mostly at $10.50 to $12.50, tops at $13.35, for wintered steers. Oklahoma steers sold at $8.25 to $11.75, including quarantines weighing 1046 pounds, at $11.00. The first train of Western Slope Colorados arrived, 12 cars, from Debeque, Colo., 1127 pounds average, at $10.75. Cows were 15c to 25c higher, a car load early to an outside buyer at $10.00, not extra fat. Calves made a big advance, top veals $12.25.

Stockers and Feeders.

Stock steers at $8.50 today were called $1.50 higher than two weeks ago. A feature sale today was 400 well bred Hereford stock calves from Western Kansas, 375 pounds, at $8.65. Feeding steers weighing 1025 pounds, brought $11.25. It was a good market on all classes from the country.

Hogs.

Hogs are skyrocketing in the last week, and nobody dares say where the advance will stop. A week ago the limit was put at $17. Now people are talking $20. Heavy hogs brought $17.35, medium weight hogs sold up to $17.25, light hogs $17.10, pigs $13.00 to $14.50, immune stock hogs at $15 to $16. Apparently nothing is being sacrificed, and demand for immune stock hogs at the plants around the stock yards is very good, market up to 50 cents from Friday. Recent rains are making some hopeless looking corn fields look much better, and if frost holds off the crop will be much larger than prospects indicated two weeks ago.

Sheep and Lambs.

The market advanced a dollar or more after the middle of last week, and is 25c to 40c higher today. Five cars of lambs from Joseph Perry, Ogden, Utah, first of the season from Utah, sold straight at $15.50, 68lb average. Native lambs sold up to $15.15, and feeding lambs are worth practically as much as fat lambs. Prime handy weight ewes would bring $10 from killers, but most of the ewes go as breeders, up to $14.50.

Albert Cook and Shane King went to Burlington Junction Monday on business.

—waiting for change of weather is for competitors only.

Some merchants do not understand advertising. They advertise when business is good and are satisfied, but they fail to put on pressure when business is poor. Really the time when advertising is needed most is when business is hardest to get.

The concern which is awake every day in the week and every week in the year is the concern which will be counting profits when others are trying to hold out against losses. The business man who waits for business to come his way as a lucky gift, who is not above the weather and who thinks of certain seasons only as being productive is the man who adds to the per centage of business failures.

When business is hardest to get then is the very time to speed up on selling methods, then is the time when advertising shows its power of production. The merchant who understands this is the one who will continue to enlarge his organization. Sitting still, giving extended vacations and waiting for change of weather is for competitors only and not for those in the sale getting frame of mind.

You may live in the most wonderful trade territory in the world, but if you neglect to go after this trade consistently and regularly you will not be one of those men who enlarges his organization,

Remember that when trade is the hardest to get then is the time to put on pressure. And every day of waiting means a distinct loss to future profits.
